### RULES

The 21st Kornati Cup is subject to the race rules and regulations defined in the World Sailing Racing Rules. This includes in particular the rules of the ORC and the sailing instructions of the YK KUN. Concerning safety, Croatian regulations apply.

The minimum requirement for personal flotation devices is ISO 12402-5 (or equivalent).

Anti-doping regulations of the World Sailing and Austrian Anti-doping national act apply. Persons suspended or barred due to doping will not be permitted to participate.

Depending on the current situation of the Covid-19 pandemic, there may be special provisions for

the event. As far as they concern the eligibility to participate (e.g. negative Covid-19 test required), these will then be published as timely as possible as an appendix to the notice of race. Insofar as they concern behaviour at the event (e.g. distances, wearing a mouth and nose protection), these are published as „Covid-19 provisions“ on the notice board and have the status of a rule in the sense of the WRS. [DP]

For the one design classes (one design groups) the regulations of the OeSV apply.

Appendix T (Arbitration) will apply.

## SAILING INSTRUCTIONS

The sailing instructions will be handed over upon registration and are available on the event website approximately one week before the event.

## COMMUNICATION

The official notice board is located in the marina area at a suitable location. All notices are duplicated on the homepage. If a physical board for announcements does not make sense from a Covid-19 point of view, this does not apply and the announcements on the event website are considered official.

At the waterfront, official notifications can also be delivered to the participants via VHF. As a service, all notices are also sent in a WhatsApp group.

Protest against a MOCRA-certificate because of weight inquiries are permitted only in case the certificate weight is higher than this calculated weight.
