## Disposal of excreta

Turkey is one of the leading countries in the Mediterranean when it comes to environmental efforts concerning the sea. The large number of ships in the Gulf of Fethiye led to the initiation of a project which is intended to be extended further along the Turkish coast. Faeces are no longer allowed to be emptied into the sea on the Turkish coast. In every marina on the Turkish coast there are faeces disposal stations where you can empty your tank for a fee. The emptying is scanned on the blue card, which is part of the ship's papers, at the waste extraction station. We recommend registering with marina via VHF channel 73 to reach the waste extraction station. Please only come to us for check-out at marina once the tank has been emptied - this is performed by the personnel of the waste extraction station. If the regulations are not observed a penalty of € 130 per litre may be incurred. You should also expect checks by the coast guards. If the blue card is lost the crew has to pay 100 Turkish Lire (TL) for the issue of a new card. Thank you for your understanding!

# TIPS

*for a safe  
sailing holiday*

To avoid problems, please do the Check-in precise and write down every deficiency at the check form.

1

The port manuals for the Mediterranean on board may be used for navigation only. Any use of other documents than those specified, results in the liability of the skipper in the case of damage.

2

The electronic map is a navigation AID and was developed to simplify the use of official maps. It is no replacement for official sea maps and only the official sea maps and messages contain the necessary information for safe navigation. The captain is responsible for correct use.

3

We recommend to fill up the yacht with diesel already in the morning of the return day and also have the holding tanks emptied. This saves the customer a long wait at the petrol stations and allows a smooth and timely check-out.

4

Give stowaways (rats) no chance! Please put rests of meal and the gangway away.

5

Think of the next person! Regrettably it happens that yachts are left in very dirty and disorderly condition. This means that the final cleaning takes longer as it should. This delays the check in of the next crew considerably. We therefore ask you kindly to ensure the boats are clean and tidy at hand over. Please dispose of your rubbish in the designated containers in the marina. These measures will facilitate a swift and punctual check in for the following crew. Thank you for your cooperation.
